Our Refurbishment & New-Build Division has recently completed a series of contracts with The Whitgift Foundation undertaking major refurbishment works to self-contained flats within Whitgift House, The Whitgift Almshouses and Whitgift Court, clustered around picturesque lawns and located in the heart of Croydon's town centre.

Founded more than 400 years ago by John Whitgift, The Archbishop of Canterbury, The Whitgift Foundation provides a range of residential care facilities specifically designed around how much or little care support is needed.

The works included new kitchens and bathrooms, general refurbishment and redecoration within a working, dynamic care home environment.
